## Playing the Game

### Betting

To play a round, configure your bet using the + / - buttons on either side of the **Spin** button and/or the **Coin Value + / -** buttons. Then, press the **Spin** button or the **Spacebar** to submit the bet and initiate the round.

The **Total bet, Balance & Win** amounts can be displayed in coins or cash values. Switching between them can be done by clicking on the bottom UI bar.

## Payout Rules

- Winning combinations are paid per active line in succession from the leftmost to the rightmost reel, except for scatter symbols.
- Winning combinations and payouts are calculated according to the game's "Paytable", which can be accessed through the **Setting** button
- The prizes are calculated using the following formula:  
**Bet** amount, divided by 50, multiplied by the symbol payout multiplier
- Only the highest win per line is paid.
- Malfunction voids all pays.
- Simultaneous wins on different bet lines are added up.
- All wins occur on the selected paylines, excluding bonus wins.

## Incomplete game sessions

- All open sessions, which are not concluded by the player, plus any future transactions for those sessions will be terminated, after a period of time, as defined by the respective regulator per jurisdiction
