Playing the game

Betting

To play a round, configure your bet using the + / - buttons on either side of the **Spin** button and/or the **Coin Value + / -** buttons. Then, press the **Spin** button or the Spacebar to submit the bet and initiate the round.

You can also choose the desired bet from the **Betting options** menu in **Settings**, and then press the Spin button to close the menu which will submit the bet and initiate the round.

The **Total bet, Balance & Win** amounts can be displayed in coins or cash values. Switching between them can be done by clicking on the bottom UI bar.

Payout Rules

Winning combinations are paid per line in succession from the leftmost reel to the rightmost reel.

Winning combinations and payouts are calculated according to the game's "Paytable", which can be accessed through the Setting button.

The prizes are calculated using the following formula: $\text{Bet amount} \times 50 \times \text{symbol payout multiplier}$

Only the highest win per line is paid.

Simultaneous wins on different bet lines are added up.

All wins occur on the selected paylines, excluding bonus wins.

Malfunction voids all pays.

All open sessions, which are not concluded by the player, plus any future transactions for those sessions will be terminated, after a period of time, as defined by the respective regulator per jurisdiction.
