

SPARTACUS MEGAWAYS

REEL PLAY

- Only highest winner paid per winning combination. Wins occur on adjacent reels, beginning with the far-left reel. Wins on multiple ways are added together. Payouts reflect the current bet configuration.
- The game consists of 6 main reels.
- Reels 1 and 6 can each show between 2 and 10 symbols per spin. Reels 2, 3, 4 and 5 can each show between 2 and 9 symbols per spin.
- There is an additional 'bottom reel' which consists of 4 rows, and spins horizontally.

The bottom reel will contribute to winning combinations on the main reel set by acting as an extra row for reels 2-5.

- When there are one or more winning combinations, the winning symbols will explode, and the new symbols will take their place.
- Symbols will drop down on the main reels, or fill in from the right-hand side on the bottom reel.
- Symbols do not transfer between the two reel sets.
- Wins are calculated before the winning symbols explode.
- Any new winning combinations will be evaluated once the new symbols fill into the reels.
- The total amount for the spin is awarded when no more cascades occur.
- Each reel on the main reel set contains a curtain which covers a portion of the reel.

- Curtains can cover up to half of their respective reel. The bottom half of the reels always remain uncovered by curtains.
- In the base game, the curtain configuration on the reels will be randomised during every spin.
- Any symbols hidden by the curtain are not considered active and cannot form winning combinations or trigger features.
- For any winning cascade during the base game:
 - As new symbols fall onto the reel set, a randomly selected curtain will rise to reveal one hidden symbol.
 - This will occur for every cascade which occurs during a single spin. The curtain will remain in this position for the remainder of the spin unless raised by further cascades.

SPECIAL SYMBOLS

- WILD and AMPHITHEATRE symbols do not appear on the bottom reel.

MEGAWAYS

- Each spin can have up to 1,000,000 Megaways to win!
- Symbols can appear in different sizes.
- At the end of every spin, the number of ways for the spin is displayed above the reel set.

FREE SPINS FEATURE

- Land 4 or more AMPHITHEATRE symbols to trigger the Free Spins feature.
- Spin the wheels to be awarded several free spins, and the curtain configuration for the feature.
- FREE SPINS USE THE SAME AWARDS AS THE TRIGGERING GAME.
- Wheel awards 6,8,10,12,14 or 16 free spins on 4 or more scatters triggered.
- Curtain configurations are randomly selected to appear on the first wheel.
- Land 3 or more AMPHITHEATRE symbols during the Free Spins feature to be awarded the same number of free spins awarded at the start of the feature.
- The curtain configuration remains the same as the configuration awarded at the start of the feature.
- The Free Spins feature plays automatically.
The feature ends when there are no free spins remaining, or the maximum win amount is achieved.
- Any WILD symbol that lands on an active part of the main reels will expand to fill the entire reel.
- As a WILD symbol expands, the curtain for that reel will uncover any symbol positions which were previously hidden.

- The curtain configuration will return to the original position after each free spin.
- Winning combinations will then be evaluated.
